

## Historic Moldings Cost Sheet

In addition to each price/ft is a \$23 setup cost.

\*knives over 3" add a \$46 total setup cost instead of the \$23

If other wood species are desired, call or email us and we can cost it for you. We can also have special knives cut to match existing molding. Please call or email with any questions or orders.

How to figure molding costs:

Ex - For 8 ft of knife 99 in poplar, take the setup cost (\$23) and add to the number of feet (8) multiplied by the price/ft (\$1.26).  $23 + 8 \times 1.26 = 33.08$ .
